Investment Objectives

The Fund seeks to provide long-term total return expressed in euro by adopting an aggressive investment strategy that invests predominantly in equities. Exposure to equity and fixed income securities is achieved through HSBC Life Assurance (Malta) Ltd. unit-linked Funds ("HLM Funds"). These HLM Funds and their respective underlying funds may invest in financial derivatives, other financial instruments and engage in leverage which may result in the overall risk exposure of the underlying funds to exceed their total net assets. For operational purposes the underlying HLM Funds may hold a proportionately small amount of its holdings in cash.
